Trend line comparison between current and previous years

Displays eligible office visits performance month to month current year.

View of the patient detail report from the BH Patients by Performance chart. It lists patient names, date of birth and office visit date with visit description and location. Performance Met compliance require patients have an eligible face to face encounter during the measurement period in addition to the appropriate screening or assessments.

Facility: All Values (15) | Metric: Diabetes Care with Serious Mental Illness  
 Month: 2017-08 | Perform: Adult Suicide Assessment, Child Suicide Assessment  
 Office Visit Facility: All Values (16) | Period: Diabetes Care with Serious Mental Illness, Hypertension MGMT in Serious Mental Illness, Tobacco Use Screening and Cessation
