

Dashboard User: Guide ACO Metrics Tile

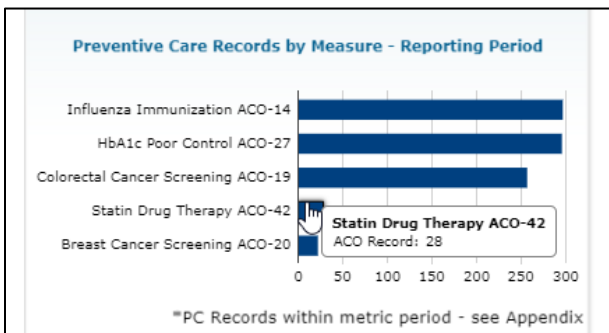

ACO Metrics displays the clinical quality measures required for accountable care organization and value-based payment program reporting. Measures cover care coordination, patient safety, preventive health, and at-risk populations.

Preventive Care Patients by Performance –Met displays a trend line comparison of last year to current month and year.

Preventive Care Patients by Performance displays a monthly summary of patients who have completed (Met) and those who have not (Not Met).

Preventive Care Records by Measure-selecting a bar from this chart will open a patient list of details for each measure.
