

## Medical Provider

SacValley MedShare offers a valuable platform for sharing crucial health information among different healthcare entities, especially for Medical Providers.

By becoming a member of SacValley MedShare, you can significantly improve patient care by using the exchange for:

- Sharing your patients' CCD, radiology reports, procedure notes, and admission/discharge/transfer (ADT) data.
- Viewing the exchange data for your patients shared by other entities visited by your patients.
- Eliminating the need for faxing, electronic mailing, or couriering information.
- Extremely valuable for patients' who have specialty procedures, surgeries, outside labs, and imaging shared by members of the exchange.

Healthcare providers can gain HIPAA compliance assurance by restricting access to only those who need patient data, ensuring the confidentiality and safety of shared information.

As a not-for-profit organization, SacValley MedShare relies on contributions from member organizations, highlighting its community-driven nature. Joining SVMS seems like a proactive step for healthcare organizations looking to enhance collaboration and ultimately improve patient care.
