CaliforniaCare360 - Patient Search Results

Opted-in patients: Select an option from the Purpose attestation dropdown to view the patient record.

Opted-out patients: Access varies based on your permissions.

If you do not have access to opted-out patient data, you will see a “You are not authorized to view this patient’s information” message, and the patient record will not open.

If you have access to opted-out patient data, the patient record will open.

If your role allows access to additional records through Emergency Access, an attestation message will appear when you select a patient outside your permitted organizations.
